These consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary, Minsud Argentina Inc. ("MAI"), and MAI's subsidiary Minera Sud Argentina S.A. 2. Basis of Presentation and Going Concern

a) Statement of Compliance

The Company's condensed interim consolidated financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting". These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2012, which were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed interim consolidated financial statements have been prepared following the same accounting policies used in the preparation of the Company's audited consolidated financial statements for the year ended December 31, 2012, and were approved by the Company's Board of Directors on August 28, 2013.

2. Basis of Presentation and Going Concern (continued)

b) Going Concern

The Company has not yet established whether its mineral properties contain resources or reserves that are economically recoverable. The recovery of amounts capitalized as mineral properties is dependent upon the discovery of economically recoverable resources or reserves, the ability of the Company to arrange appropriate financing to complete the development of properties, and upon future profitable production, or alternatively, upon the Company's ability to dispose of its interests on an advantageous basis, all of which are uncertain.

The Company's ability to continue as a going concern is dependent upon, but not limited to, its ability to raise financing necessary to fund its exploration programs, maintain its mineral properties concession rights and exploration agreements with purchase options, discharge its liabilities as they become due and generate positive cash flows from operations.

These financial statements are prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of the business. Accordingly, these financial statements do not give effect to adjustments that may be necessary, should the Company be unable to continue as a going concern. If the going concern assumption is not used then the adjustments required to report the Company's assets and liabilities at liquidation values could be material to these financial statements.

The prices of metals and minerals fluctuate widely and are affected by many factors outside of the Company's control. The prices of metals and minerals and future expectation of such prices have a significant impact on the market sentiment for investment in mining and mineral exploration companies. This in turn may impact the Company's ability to raise equity financing for its long term working capital requirements.

3. Significant Accounting Policies

The accounting policies are consistent with those of the Company's audited consolidated financial statements for the year ended December 31, 2012.

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of these consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. The most significant judgments, estimates and assumptions include those related to the ability of the Company to continue as a going concern, recoverability of amounts capitalized as mineral properties, determinations as to whether costs are expensed or deferred, evaluation of contingencies and determination of the Company's functional currency.

Management has determined that judgments, estimates and assumptions reflected in these consolidated financial statements are reasonable.

5. Short-term Investments

The Company's short-term investments consist of highly liquid, AAA rated bonds and are carried at fair market value.

7. Mineral Properties (continued)

Brechas Vacas Property

On September 7, 2007, the Company, through its subsidiary MSA, entered into an Exploration Agreement including a Purchase Option (the "Brechas Vacas Agreement") with the owners of the mining properties (the "BV Owners") identified as Proyecto Brechas Vacas, located 35 km from Iglesia in the Chita Valley, in the Province of San Juan, Argentina.

Pursuant to the Brechas Vacas Agreement, the BV Owners granted to the Company the irrevocable and exclusive right to evaluate, prospect and explore the properties using any method, and at the Company's sole discretion. In addition to the exploration rights, the BV Owners granted to the Company an irrevocable and exclusive option to purchase a 50% ownership interest in these properties pursuant to certain terms and conditions stated in the Brechas Vacas Agreement.

On September 6, 2011, MSA exercised its option to purchase a 50% ownership interest in these properties for consideration of US\$210,000 (\$207,748). In order to facilitate this, on December 23, 2011, ownership of the properties was transferred by the BV Owners to the Brechas Vacas Trust (the "Trust"). MSA simultaneously acquired a 50% beneficial interest in the Trust in exchange for the consideration of US\$210,000 in accordance with the terms of the option agreement dated September 7, 2007, and an extension agreement dated November 23, 2011.

The remaining 50% beneficial interest in the Trust held by the BV Owners was subject to a new exclusive and irrevocable purchase option agreement (the "Option") granted in favor of MSA. The Option provides MSA with an irrevocable and exclusive right to purchase the remaining 50% beneficial interest in the Trust in addition to the exclusive right to evaluate, prospect and explore the Brechas Vacas properties.

The Option is subject to semi-annual staggered payments to the BV Owners of US\$710,000 in aggregate commencing on July 4, 2012, and ending on December 9, 2016, in addition to an aggregate payment of US\$220,000 to be settled by the issuance of an equivalent number of common shares of the Company sometime between June 28, 2013 and December 9, 2016. The Option can be fully exercised by MSA at any time on or before June 7, 2017 (the "Expiration Date"). The Option's exercise price is US\$1,070,000 payable by cash payments of US\$535,000 and a payment of US\$535,000 to be satisfied by the issuance of an equivalent number of common shares of the Company. The issuance of common shares of the Company is subject to the Exchange's approval and will be issued at the market price as of the date any commitment becomes due. If MSA decides to exercise the Option before the Expiration Date, 75% of any outstanding payments, whether accrued or not, will be added to the final exercise price of the Option.

The number of common shares to be issued by the Company in connection with the payments discussed above is dependent upon the market price of the Company's shares at the time the shares are issued to the BV owners pursuant to the terms of the Option.

During the period ended June 30, 2013, the Company made a cash payment of US\$50,000 (\$52,545) and issued 419,000 common shares of the Company to the BV Owners at a deemed value of \$0.05 per share in settlement of a US\$20,000 payment in connection with the Option discussed above.

11. Stock Option Plan

On November 29, 2011 a new form of stock option plan (the "2011 Plan") was approved by the shareholders at the annual and special meeting of shareholders held that day. The 2011 Plan is a rolling stock option plan. Options to purchase up to 10% of the total number of Company Shares issued and outstanding at the date of any grant are issuable pursuant to the 2011 Plan. The 2011 Plan is a rolling plan as the number of options which may be granted pursuant to the 2011 Plan will increase as the number of the Company's shares, which are issued and outstanding, increases. If an option expires or is otherwise terminated for any reason, the number of the Company's shares in respect of that expired or terminated option shall again be available for the purposes of the 2011 Plan. Pursuant to the policies of the Exchange, the shareholders of the Company are required to approve on a yearly basis stock option plans which have a rolling plan ceiling. Options issued under the 2011 Plan are non-assignable and non-transferable and may be granted for a term not exceeding ten years. The 2011 Plan is administered by the Company's board of directors (the "Board of Directors") or a committee established by the Board of Directors for that purpose (the "Committee"). The 2011 Plan may be amended, subject to applicable regulatory and shareholder approval, or terminated by the Board of Directors or the Committee at any time, but such amendment or termination will not alter the terms or conditions of any option awarded prior to the date of such amendment or termination. Any option outstanding when the 2011 Plan is amended or terminated will remain in effect until it is exercised or expires or is otherwise terminated in accordance with the provisions of the 2011 Plan. The 2011 Plan provides that other terms and conditions, including vesting provisions, may be attached to a particular stock option at the discretion of the Board of Directors or the Committee, provided that, if required by any stock exchange on which the shares of the Company trades, options issued to consultants which provide investor relations activities must vest in stages over not less than 12 months with no more than one-quarter of the options vesting in any three-month period. All option grants are to be evidenced by the execution of an option agreement between the Company and the optionee which shall give effect to the provisions of the 2011 Plan. Options may be granted under the 2011 Plan only to directors, officers, employees and other service providers of the Company subject to the rules and regulations of applicable regulatory authorities and any Canadian stock exchange upon which the Company's shares may be listed or may trade from time to time.
